LAFD's Community Emergency Response Team (CERT)  
[CERT LA Battalion9](#) invites you to

## Prepare physically and financially for the next earthquake or other natural disaster

*Time to get a kit, make a plan, be prepared!*

Not having ruptured since 1690, the San Andreas Fault is long overdue for a massive quake. The Northridge quake showed LA how even a smaller magnitude quake can significantly affect us. A 7+ San Andreas event is more than a century overdue. One scientist refers to it as the section that's "10 months pregnant."
